## ***Welcome!***

The Byron School of English is a family-run business that has been providing high quality English courses since 1992. We specialize in intensive courses for small classes of students, most of whom are studying English for business or University.

With classrooms in the garden of the family home, we offer an environment that is supportive, stimulating and very different from the norm. This is underpinned by good teaching and an enjoyable sharing of English culture and language.

***"When you study at the Byron School, you don't just learn English, you become English during your whole stay."***

Sara, Belgium.
